

## MORA safe shower mixer

A new range of mixers for hospitals and customers that demands a legionella function. The legionella function is easily accessible without any disassembly. The mixers is delivered with a temperature stop ring with a safety stop at 38°C and a complete stop at 45°C. This means that it is easy to adjust the maximum temperature by adjusting the position of the stop ring.

**Article number:** 702360.SA

**Description:** Chrome, incl. s-connection (2x701001)

Unique characteristics

- With shower connection down
- Compensates temperature and pressure fluctuations
- Temperature handle with safety stop at 38°C, maximum temperature at 43°C
- Equipped with function for thermal disinfection against legionella
- Approved non-return valves, EN-Standard EN1717
